

API Alliance, Inc. Wins Coveted Indiana Companies to Watch Award

July 18, 2014 - Fort Wayne, Indiana, API Alliance, Incorporated - contract manufacturer of electronic controls, electro-mechanical assemblies and engineering services - announces they have won a coveted Indiana Small Business Development Center's (ISBDC) Companies to Watch award. According to the ISBDC's website, "Indiana Companies to Watch celebrates high-performing, second-stage companies in the state. Known for their performance in the marketplace, innovative products, unique processes or philanthropic actions. They make an astounding impact on the state's economy by collectively providing thousands of jobs and contributing millions of dollars of revenue."

API Alliance - a Fort Wayne based company has experienced substantial growth over the last several years; this growth coupled with employee focused environment and continual process improvements, has made API a winner for the Companies to Watch program. According to Mike Gigli, API's General Manager, "We are very excited to win this award! Our team has worked hard to make API a positive and productive environment for both our customers and employees." Gigli continued, "Our company has always been an employee focused company, because we know if our employees are content in the work-place – they are punctual and productive; all of these factors lead back to happy customers."

API Alliance, Inc., incorporated in 1994, is celebrating 20 years in business this year. It began as an electronic contract manufacturer, but has grown into a multi-faceted engineering design firm with prototype to full production capabilities. With their experienced staff and variety of production, engineering and procurement options, they give their customers a competitive advantage. API Alliance has leveraged their 20 years of experience in contract manufacturing/engineering to become our customers' partner in engineering and production.
