Spring 2014

Volume 5 - Issue 1

An Inside Look at our Updated Facility

In October of 2013, API started construction on additional office space and expanding our manufacturing floor; the construction was completed in January-2014. We have added several new offices, cubicles, a second conference room, as well as, a variety of additional manufacturing stations.

We have also added an automated dip solder machine and a semi-automated SMT reflow line. We have expanded our engineering space and manufacturing area/capabilities to better serve our customers' current and future needs.

If you would like to learn more about our new facility or take a tour, please contact Kurt Webber (kwebber@apialliance.com - 260.637.2739 x111).

**Celebrating 20 Years of
Engineering and
Manufacturing Excellence!
1994 - 2014**

Shelia Schneider - Office Administrator

Introducing Shelia Schneider, our new office administrator. Shelia coordinates the accounting, human resources and daily office management for API Alliance (as well as Northern Apex). Shelia grew up in Fort Wayne, Indiana and graduated from Carroll High School.

Schneider

Over the last 10 years, Shelia worked at Fort Wayne Truck Center, Fort Wayne Mack and Navistar, Inc., as a service contract administration manager. Shelia is a single mom with 3 boys - who enjoy playing hockey and racing motocross bikes. She enjoys watching her boys grow up and attending as many games and races as possible. Her hobbies include photography, scrapbooking, and working on remodeling her home.

Please join us in welcoming Shelia to our team!

Expansion News...

Our recent expansion allows us to service our customers more efficiently. It has given us the ability to expand as your needs change and grow.

Our Promise To You...

To utilize our proficiency in electronic manufacturing, electro-mechanical assembly and engineering services to become a long-lasting **"Partner in Production."** These alliances are to be based upon excellent communication, mutual trust, proactive participation and a complete understanding of our customer's goals. We shall offer unwavering technical and project management assistance to the level expected from these customer relationships.

Please contact Kurt Webber to discuss your specific application:
